

Pertaining to Use of Depleted Uranium Under a General License

Instructions – The information provided by the State of Wisconsin, Department of Health and Family Services (DHFS), Radiation Protection Section is a summary of *s. HFS 157.11 (1) (c). General license relating to depleted uranium in industrial products and devices*, to be used by the registrant in order to understand the requirements that pertain to a Certificate for Use of Depleted Uranium under General License.

s. HFS 157.11 (1) (c)

- (c) ***General license relating to depleted uranium in industrial products and devices.***
1. A general license is issued to receive, acquire, possess, use or transfer, under the provisions of 2., 3., 4., 5., and 6. in this summary depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device.
 2. The general license issued under this paragraph applies only to industrial products or devices that have been manufactured or initially transferred either under a specific license issued to the manufacturer of the products or devices under *s. HFS 157.13 (4) (k)* or under a specific license issued to the manufacturer by the NRC or an agreement state which authorizes manufacture of the products or devices for distribution to persons generally licensed by the NRC or the agreement state.
 3. A person who receives, acquires, possesses or uses depleted uranium under the general license under this paragraph shall file a “Certificate – Use of Depleted Uranium Under General License” form with the department. The form shall be submitted within 30 days after the first receipt or acquisition of depleted uranium. The general license shall furnish on the “Certificate – Use of Depleted Uranium Under the General License” all of the following information and any other information required by that form:
 - a. Name and address of the general licensee.
 - b. A statement that the general licensee has developed and will maintain procedures designed to establish physical control over the depleted uranium described in this paragraph and designed to prevent transfer of the depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium.
 - c. Name and title, address and telephone number of the individual duly authorized to act for and on behalf of the general licensee in supervising the procedures identified in part 3. b of this summary.
 4. The general licensee possessing or using depleted uranium under the general license established under this paragraph shall report in writing to the department any changes in information furnished by that person in the “Certificate – Use of Depleted Uranium Under General License”. The report shall be submitted within 30 days after the effective date of the change.
 5. A person who receives, acquires, possesses or uses depleted uranium under the general license established under this paragraph shall comply with the following:
 - a. Not introduce the depleted uranium, in any form, into a chemical, physical or metallurgical treatment or process, except a treatment or process for repair or restoration of any plating or other covering of the depleted uranium.
 - b. Not abandon the depleted uranium.

(Continued)

- c. Transfer or dispose of the depleted uranium only under the provisions of *s. HFS 157.13 (15)*. In the case where the transferee receives the depleted uranium under the general license established under this paragraph, the party making the transfer shall furnish the transferee a copy of *s. HFS 157.11* and a copy of the "Certificate – Use of Depleted Uranium Under General License". In the case where the transferee receives the depleted uranium under a general license contained in the NRC or agreement state regulations equivalent to this paragraph, the party making the transfer shall furnish the transferee a copy of *s. HFS 157.11* and a copy of "Certificate – Use of Depleted Uranium Under General License" accompanied by a note explaining that use of the product or device is regulated by the NRC or an agreement state under requirements substantially the same as those in *s. HFS 157.11*.
 - d. Within 30 days following a transfer, report in writing to the department the name and address of the person receiving the depleted uranium under the transfer.
 - e. Not export the depleted uranium except under a license issued by the NRC under *10 CFR 110*.
6. A person receiving, acquiring, possessing, using or transferring depleted uranium under the general license established under this paragraph is exempt from the requirements of *HFS 157 subchapters III and X* with respect to the depleted uranium covered by that general license.
